Subject: Request for Recognition of Himalayan Buddhist Cultural Association as the National Centre of ABCP in India

Respected Secretary-General

Greetings in the Dharma!!

On behalf of the Himalayan Buddhist Cultural Association (HBCA), I would like to express our sincere respect for the continued work of the Asian Buddhist Conference for Peace (ABCP) in promoting peace, harmony, and Buddhist values across Asia.

HBCA is a registered cultural and spiritual organization working actively to preserve, promote, and rejuvenate the living traditions of Himalayan Buddhists. Rooted in the vision of universal compassion and peace, HBCA operates across the Himalayan belt, engaging with monastic institutions, lay communities, scholars, and youth to foster spiritual growth, cultural education, and social service.

It is with great reverence that we recall the contribution of the late Kushok Bakula Rinpoche, a revered spiritual master and diplomat, who played a significant role in establishing deep Buddhist and cultural ties between India and the broader Asian region, including contributions to the development of ABCP.

Considering our shared values, we humbly request that the HBCA be recognized as the National Centre of ABCP in India.

HBCA has been actively engaged in promoting peace and Buddhist values throughout the Himalayan region, including Ladakh, Himachal Pradesh, Sikkim, Arunachal Pradesh, and parts of Nepal and Bhutan. We are confident that our wide network, experience, and dedication position us well to represent and further the mission of ABCP in this region.

We would be pleased and honoured to be associated with a recognized and respected body like the ABCP.

HBCA is fully committed to undertaking all necessary formalities and is ready to submit any required documentation for this purpose.

We look forward to your kind consideration and guidance in this matter and hope for a positive response.

With warm regards in the Dharma,

Geshe Lama Chosphe Zotpa
President

Himalayan Buddhist Cultural
Association (HBCA)
